Crowdsourcing Quality Control

Reading Questions 16

Wednesday, Oct. 31st 2012

1 Crowdsourcing Quality Control

1. Describe in your own words the problem that the paper is addressing and the methodology they are using.

2. How do the authors define reliability and quality? Do you find it natural? Can you see some other ways of defining it? How does it influence the algorithm?

3. Describe in your own words how the algorithm works, and particularly, the intuition behind the updates.

4. Any questions?

2 Generic Response

Respond to the paper following the guidelines on the front page of the course website (under 'Submit Comments and Presenting Papers').
