

Collaborative Crowdsourcing

Reading Questions

November 19, 2012

1 Questions

1. What are the problems of crowdsourcing competitions (like the Netflix prize) that this paper would like to correct?
2. What is the objective of the scoring rule (is its purpose strictly to elicit the beliefs of all the participants)?
3. How does the generalized scoring rule in this paper differ from the market scoring rules we saw earlier?
4. What three properties of a CLM do we want (besides incentivizing agents to tell the truth) in order to make sure it aggregates information?

2 Generic Response

Respond to the paper following the guidelines on the front page of the course website (under 'Submit Comments and Presenting Papers').
